

2026 MEP Giants Submission Form

The *Consulting-Specifying Engineer* MEP Giants program annually lists the top 100 mechanical, electrical, plumbing (MEP) and fire protection engineering firms in North America. The in-depth analysis of these firms will appear in September, and a special emphasis will be placed on commissioning firms in a separate report in November.

The baseline MEP design revenue for participating in the 2026 MEP Giants program is \$10 million, so your firm is eligible for consideration if your design revenue is \$10 million or greater.

Submissions are due by Friday, April 10, 2026, at 5 p.m. CT.

Please note that the MEP Giants and the Commissioning Giants programs are separate. If your firm performs MEP/FP engineering services and commissioning services then you may submit for both programs separately. If your firm performs only commissioning services then please see the [2026 Commissioning Giants Submission form here](#). You do not need to enter your firm's information into the MEP Giants form in order to access the Commissioning Giants form.

In addition, you do not have to complete the MEP Giants form all at once. Once you respond to the questions on this page and click "Next" to continue to Page 2, you will be able to save your submission form to be completed at a later date. This "Save & Continue Later" option will appear at the top of the page and prompt you for your e-mail address. You will receive an e-mail with a direct URL to your partially submitted form. **Your completed form must be submitted by April 10, 2026, 5 p.m. CT, in order to be considered for the 2026 MEP Giants program.**
