

## 2027 System Integrator of the Year Nomination Form

Each year, a panel of *Control Engineering* and *Plant Engineering* editors and industry expert judges select the System Integrator of the Year award winners in three categories (based on the size of the organization) from the [Global System Integrators Directory](#). Three general criteria are considered for the selection of winners: business skills, technical competence, and customer satisfaction. Winners are then inducted into the [System Integrator Hall of Fame](#) and featured in the December Global System Integrator Report. Intended as a 12-month reference guide, the Report celebrates recent achievements by highlighting integrators that will make a difference in the years to come.

**Important:** There are two forms companies must now submit: a nomination form and a [supporting materials form](#). The form in front of you now is the nomination form. Upon submission you will receive an email with a unique nomination ID number required to submit the supporting materials form.

**System Integrator of the Year nomination deadline: Friday, Aug. 28, 2026, at 5 p.m. CT**

In order to be considered for the System Integrator of the Year program, your company must have a complete, valid listing within the Global System Integrators Directory, and the following nomination form and subsequent supporting materials form must be completed truthfully and accurately.

Looking for the supporting materials upload form? [Access it here!](#)

A red asterisk (\*) indicates response is required.
