

360 Feedback Report

Linda Nickolson

Welcome to your 360 results

Receiving feedback on your performance can be personal, emotional, and an extremely powerful catalyst for development. The best way to digest performance feedback is to start by understanding a few key aspects of leadership, your strengths, and how we work through change. Review the concepts below as you take in your survey feedback.

Making sense of the data

The feedback in this report starts at a high level and then gets more specific. As you read through the results consider the questions below. Use the Leadership 360 Follow-up Guide for more detail on how to think through your results and create a development plan.

Understanding your competency ratings

For each competency, you will be provided with the average rating for each category of raters. Items are rated on a Strongly Disagree (rating = 1) to Strongly Agree (rating = 5) scale.

Understand, a competency score is meant to be a useful tool to help you improve. If you have a lower score than you expected, don't take it personally. Likewise, if your score is higher than expected, don't let it get to your head.
